

Environmental Compliance

Sarmad Motors Pakistan (Pvt) Ltd · Document Code: COMP-02 · Type: compliance · Department: All Employees

Purpose

Environmental regulations covering used oil disposal, tyre disposal, paint booth emissions and effluent handling.

Effective from the first working day of the current calendar year. Reviewed annually by the document owner and revised as necessary. Version 1.0.

1. Used Oil

Used engine oil is collected in labelled drums, weighed monthly, and disposed of only through the government-approved recycler. The recycler's certificate of disposal is filed and available for audit.

2. Tyres and Batteries

Old tyres and batteries are returned to the OEM or the approved recycler under a buy-back arrangement. No used tyres are sold to third parties.

3. Paint Booth

The paint booth must operate under negative pressure with functional exhaust filters. Filters are changed on a defined schedule. Booth emissions are tested twice a year by an accredited lab.

Approval and Ownership

This document is owned by the HR department and approved by the Branch Manager. Questions or clarifications should be directed to the document owner. Non-compliance is a disciplinary matter under the HR Policy Manual.
