

Change Management Process

Sarmad Motors Pakistan (Pvt) Ltd · Document Code: PROC-02 · Type: process_manual · Department: IT

Purpose

How changes to the DMS, showroom kiosks and workshop tooling are proposed, approved, deployed and rolled back.

Effective from the first working day of the current calendar year. Reviewed annually by the document owner and revised as necessary. Version 1.0.

1. Request

A change request is filed on the IT service portal with description, business justification, requested date and rollback plan. Standard changes follow a pre-approved template; normal changes go through the change advisory board.

2. Approval

Standard changes are auto-approved. Normal changes require the branch-IT lead, the affected department head and, for financial system changes, the finance manager. Emergency changes are approved verbally and documented within 24 hours.

3. Deployment and Verification

Changes are deployed outside business hours. A verification checklist is executed and signed off. If issues arise, the rollback plan is invoked immediately and a post-mortem is written within seven days.

Approval and Ownership

This document is owned by the IT department and approved by the Branch Manager. Questions or clarifications should be directed to the document owner. Non-compliance is a disciplinary matter under the HR Policy Manual.
