

Test Drive SOP

Sarmad Motors Pakistan (Pvt) Ltd · Document Code: SOP-03 · Type: sop · Department: Sales

Purpose

How a prospect is offered a test drive, the documentation required, and the safety rules that must be followed.

Effective from the first working day of the current calendar year. Reviewed annually by the document owner and revised as necessary. Version 1.0.

1. Eligibility Check

Before a test drive is offered, the sales executive must verify the prospect's valid driving licence and CNIC. Photocopies are attached to the test drive log. A prospect without a valid licence cannot drive; a company driver may drive on their behalf.

2. Route and Duration

Test drives follow one of the three pre-approved routes documented in Appendix A. Duration is capped at 30 minutes. Off-road or highway high-speed test drives are not permitted.

3. Accompanying Executive

A sales executive must accompany the prospect at all times. The executive is responsible for briefing the prospect on controls before starting the engine, and for stopping the drive if the prospect drives unsafely.

4. Post-Drive

On return the vehicle is inspected, fuel level checked, and the odometer reading logged. Any damage, however minor, is reported immediately to the sales manager. The prospect is thanked and offered follow-up material.

Approval and Ownership

This document is owned by the Sales department and approved by the Branch Manager. Questions or clarifications should be directed to the document owner. Non-compliance is a disciplinary matter under the HR Policy Manual.
