

Job Roles

Sarmad Motors Pakistan (Pvt) Ltd

Purpose

The Job Roles module lists every role a Sarmad Motors employee can hold. A job role bundles a job title, a department and a description. When an employee is registered under a role, the Role Requirement Matrix decides which onboarding requirements apply to them, and the Plan module composes a role-specific plan.

Why this matters

An onboarding plan generated for a Body Shop Technician is very different from a plan generated for a Marketing Executive - the source documents cited, the safety topics covered, the quizzes and the assessment rubric all change. Job roles are how the system knows which set to compose.

Role	Department	Description
Sales Executive	Sales	Front-line vehicle sales, walk-in and cold prospect handling, quotation generation, test drive coordination, and closing.
Customer Relations Officer	Customer Care	Handles customer feedback, post-sale check-ins, service reminder calls, and complaint escalation.
Service Advisor	Service	First point of contact at service reception; captures customer complaints, opens job cards, communicates status.
Mechanical Technician	Workshop	Performs periodic maintenance, engine repair, brake and suspension work per manufacturer service manuals.
Auto Electrician	Workshop	Diagnoses and repairs electrical, ECU, wiring, battery and infotainment issues on all vehicle lines.
Body Shop Technician	Workshop	Handles collision repair, denting, painting and refinish work using approved paint booth procedures.
Parts Coordinator	Parts & Inventory	Manages spare parts inventory, indents, receipts, cycle counts, and inter-branch transfers.
Warranty Administrator	Service	Owns warranty claim filing with the OEM, documentation, part return, and reimbursement reconciliation.
Quality Control Inspector	Quality Assurance	Performs pre-delivery inspections and post-service quality audits per checklist.
Workshop Supervisor	Workshop	Allocates jobs to technicians, tracks bay utilisation, signs off on quality gates.
Finance Executive	Finance	Handles customer financing paperwork, dealer invoicing, cash reconciliation, and month-end close.
HR Coordinator	Human Resources	Owns hiring, onboarding, payroll input, leave records, and employee grievance intake.

Marketing Executive	Marketing	Runs local marketing campaigns, showroom events, digital lead follow-up, and brand-compliance.
Fleet Manager	Operations	Owns corporate and government fleet accounts, tender participation, and SLA tracking.
Branch Manager	Management	P&L; owner for the branch; leads all department heads, dealer standards audit, escalation authority.

Notes

- Every role must have a name unique across the company.
- Roles can share departments - Sales and Marketing may share the same department code for smaller branches.
- A role can be inactivated but not deleted once it has employees attached; the employee is either transferred or archived first.
- The role description feeds into the AI prompt for onboarding plan generation, so it should be specific and clearly written.
